Granite Networks Indy – In Stock Kitchen Cabinets

At Granite Networks Indy, we think and breathe superior quality cabinets that make your dream kitchens a reality. We are relentless in our progress, and as it stands, we have over 100 kitchen cabinets styles and designs in Indianapolis and beyond, with a wide variety of finishes to go with. Also, most of our cabinets feature:

- **Solid wood fronts**
- **Plywood box interiors**
- **Sturdy hardwood face frame**
- **Solid wood dovetail drawers with soft close options and heavy duty full extension drawer glides.**
- **Exotic 6-way adjustable hinges with soft close options**

All Wood Construction

Most of the cabinets we sell are constructed following the all-wood construction philosophy, which in cabinetry refers to each interior box being constructed from furniture grade plywood. Plywood is a composite sheet made by bonding multiple layers of thin wood in a cross-grain pattern. The adopted pattern enhances the resulting plywood to be sturdier, more heat resistant, and more water resistant wood composite when compared to particle boards. Plywood bears more structural integrity, and have more tensile strength, which enables our plywood boxes to take more weight than particle boards. With this, we ensure that our plywood boxes are supremely strong, long lasting, and retain their appealing and luxuriant value over an extended period.
